Tender announcement

Pasaia, 15 February, 2023

t. +34 94 657 40 00
info@azti.es | www.azti.es

1. OBJECT

The AZTI Foundation announces the opening of a public tendering procedure for **the subcontracting of the development of a Web App/App to display information generated (occupancy data, meteorological variables and currents) on different beaches in the Canary Islands.**

2. LENGTH OF SERVICE

The service will be provided within a maximum period **eight weeks** (8 weeks) from the date of signing the contract.

3. ECONOMIC TENDER

The maximum economic offer that will be accepted for this tender is **eighteen thousand euros (18.000,00 euros)**, taxes not included.

Invoicing will take place at the conclusion of the service, and the invoice will be paid within 60 days of the date of issue.

4. ASSESSMENT CRITERIA FOR PROPOSALS

The proposals received will be assessed on the basis of the following criteria:

Economic offer	50%
Technical adjustment	40%
Improvements	5%
CSR policies	5%

Tel. 34 667 174 482

Mail: pliria@azti.es

6. AWARD

Once the offers have been received on the date indicated for their presentation, within 15 working days, the result of the tender will be published on the AZTI Foundation website.

7. CONDITIONS DE RECRUTEMENT

- The selected entity, during the time that the service relationship with AZTI lasts, must comply with the regulations in force on labour matters, Social Security and Health and Safety at Work, being subject, if applicable, to carry out the coordination of business activities in accordance with RD 171/2004 according to the procedure and specifications established (available at <https://www.azti.es/en/recruitment-rules/>)
- In any case, and independently of any other documentation, the selected entity must present, before the formalization of the contract, a certificate that proves that it is up to date with the fulfillment of its tax and social security obligations.
- The selected entity must present the necessary documentation to formalize the contract within a period not exceeding 20 days from the award. Any additional

& TECHNOLOGY ALLIANCE

questions may be consulted in the Internal Contracting Regulations published at www.azti.es

- In addition to the technical and administrative conditions, AZTI will positively evaluate those suppliers who demonstrate that they maintain policies on Quality, Health and Safety, the Environment, Sustainable Mobility, as well as Corporate Social Responsibility.

The supplier shall include in its proposal those documents or records that allow verification of these policies (quality and environmental certificates, documentation relating to actions in matters of social responsibility, etc.)

- If, as a consequence of this tender's development, a product (software, algorithm, hardware, digital platform, etc), service (consulting, advisory, digital, etc) or solutions (digital, software platform, programs, etc) are generated, the ownership as well as the rights to exploit the intellectual and industrial property shall belong to AZTI. All those rights of exploitation shall prevail over any subsequent agreement signed with the selected entity and which might eventually conflict with the conditions established in this tender. AZTI shall also recognise the inventors' authorship if it disseminates the results generated during this tender.
- The selected entity will not be able to exploit or develop competing systems similar to what is generated in this tender.
- The selected entity pledges to safeguard and maintain the confidentiality of information shared by the tendering entity and to uphold professional secrecy; accordingly, it will neither reveal nor communicate to or inform third parties about the information it may know and obtain for the purpose of supporting the technical development of this tender (beforehand, during or once finalised).
- This obligation of confidentiality and non-use of confidential information does not end when the service is completed and shall remain in force for as long as the confidential information is not in the public domain, without there having been any infringement of the awarding entity's obligations.

“From FUNDACIÓN AZTI we treat the information you provide us with the purpose of placing your order and billing for services and maintaining commercial relations. The legal basis for the processing of your personal data is our legitimate interest in maintaining commercial relations and carrying out the provision of services, being strictly necessary for this purpose. The data provided will be kept as long as the commercial relationship is maintained or for the years necessary to comply with legal obligations and, once the relationship has been resolved, to the extent that liabilities may arise. The data will not be transferred to third parties except in cases where there is a legal obligation, as well as to those providers of technical and computer services and auditing. Under no circumstances will we carry out international transfers of your personal data. You have the right to obtain confirmation as to whether or not FUNDACION AZTI - AZTI FUNDAZIOA is processing your personal data. Therefore, you have the right to access your personal data, rectify inaccurate data or request its deletion when the data is no longer necessary, as well as to exercise your right to oppose, limit or transfer your data, under the terms provided for in the applicable data protection regulations, by writing to the above-mentioned address. You may also lodge a complaint with the competent supervisory authority”.

9. TECHNICAL REQUIREMENTS

This work is part of a project currently underway in which AZTI is going to install and start up several coastal videometry stations and services on the beaches of the municipality of Las Palmas de Gran Canaria. Specifically, the beaches of Las Canteras, Alcaravaneras and La Laja will be covered. Different sections will be defined within each of the beaches, especially on Las Canteras beach, due to its large extension. Among the services to be developed is the generation of information on beach attendance and occupancy levels. This information will be processed from the images obtained by the videometry stations and will be updated every half hour.

Within this framework, the development of a Web App/App is to be contracted to show the information generated within the framework of the project for the different beaches and sections defined in each one. Specifically, the application will show at least the following information:

- Report on the occupancy status of each of the sectors defined on the beaches by displaying their status both in list mode and on a map.
- Provide estimated information on occupancy trends in the coming hours.

MEMBER OF
BASQUE RESEARCH
& TECHNOLOGY ALLIANCE

- Guide the citizen to the sector of their choice.
- Provide information on the tide level.
- Provide weather information and forecasts.
- Provide information on currents and the state of safety of the beach.
- Be available for all major app shops, including at least Google Play Store and Apple App Store.
- Be compatible with at least Chrome and Firefox web browsers.

The bidder must attend online meetings with the end client (Las Palmas city council) in which AZTI will be accompanied and in which solutions to cover the different functional and appearance requirements of the application will be discussed and proposed and the main advances in the development will be shown.

The tenderer must have a development environment in which examples of the different proposals and the progress of the work can be shown, as well as the possibility of sending a DEV version for validation prior to uploading the final development to PRO.
