Sukarrieta, 19 April 2023

1. OBJECT

The AZTI Foundation announces the opening of a public tendering procedure for **the rental of a bottom trawler to carry out a scientific cruise in the waters off the coast of France (ICES 8abd zone).**

2. LENGTH OF SERVICE

The duration of the cruise will be seven (7) days (one fishing trip) and will take place between June and July 2023.

The exact date of the start of the trip will be determined according to the availability of AZTI researchers and will consider the meteorological conditions, which will have to be favourable for the cruise to be carried out. It will be agreed with the ship-owning company with sufficient time to ensure good planning on both sides.

3. ECONOMIC TENDER

The maximum economic offer that will be accepted for this tender is **twelve thousand euros (12.000,00 euros)**, taxes not included.

Invoicing will take place at the conclusion of the service, and the invoice will be paid within 60 days of the date of issue.

9. TECHNICAL REQUIREMENTS

The selected entity will have to respond to the technical requirements described:

Tasks to be executed:

- Provide a bottom trawler for the cruise and follow the instructions of the cruise leader.
- Operate the trawls according to the cruise plan: the vessel will operate with the regular fishing net and will alternate the use of 2 different codends, one with a nominal mesh size of 70 mm, as established by the regulation; and the other will correspond to a blind codend. Both codends shall be provided by the successful tenderer. To operate with these codends, the necessary permits shall be requested by AZTI to the competent authorities.

The selected entity must provide proof of:

- Having bottom trawlers operating on the coast of France (ICES 8abd zone).
- That the vessel to be used in the cruise has a wide working deck to operate the codends described in the planning, as well as a wide factory deck (processing area) where AZTI's technical staff can carry out their functions.
- Having two trawl nets of similar characteristics to operate alternately with each of the codends established in the description.
- Being available to carry out the cruise between the planned dates (June-July 2023).
- Having habitability for two scientific personnel during the foreseen period.
